Immobilizer (VESA & VSS standard)

The following Vesa/VSS standard will apply to all vehicles under R150 000.0 in value;

Only vehicles security systems that are approved by the Vehicle Security Association (VESA) meet insurer’s security specifications. VESA products are installed in vehicles that have no protection (older vehicle – per 1995), that are not on the VSS list or with outdated VESA and factory fitted systems.

The security system of every new vehicle that is manufactured is tested thoroughly. The results are published quarterly in a Vehicles Security Systems (VSS) list. These vehicles automatically comply with the security specifications set by insurer’s.
